

CENTRAL INTELLIGENCE AGENCY
WASHINGTON, D.C. 20505

10 May 1977

Ambassador L. Douglas Heck
Director for Combatting Terrorism
Department of State
Washington, D.C.

Dear Doug:

The attached study on Key Global Issues--energy dependence, LDC demands, food and population, terrorism, and nuclear proliferation--attempts to point out the links among these issues and the implications for international relations generally, including such traditional concerns as OECD affairs and East-West relations. It was prepared by the International Issues Division of the Office of Regional and Political Analysis. You will find the section on international terrorism of particular interest.

I would appreciate any critical comments you might have on the general analytical approach and substantive judgments of the study.

Sincerely,

Cord Meyer, Jr.
